More Confusion for the Free Traders.

The McKinley bilt is generous exough to give something to everybody. It will give a big torpins to the monopolist, and indices statestics to the wage except and the statestics to the wage except of the good to age of this life!—New New Merold. in spite of the fect that the condition husions absolutely refutes this part of tive, the free trade organic continue limit rampaigo of toleropresentation on their relitorual pages. One does not have to go cutside of these very journals to find a complete contradiction of these calamity predictions, because their is hardly a day that the news columns of the free trade organs do not give the lie to the editor's delviul wall. It would naturally be supposed that a great paper like the Meraid Twenty Principles. could find more profitable employmen; than to deliberately misrepresent the business situation of the country, but the above only serves as another illustration of the depatriotic, bide-belend participathip of the so-called for spendent journal.

The latest set best to the free trade off-

The decline in this industry following the reduction of the lartif, in 1865 was everying and hundreds of shifted workwan were forged to find employment as nominos laborers. Its revivat under the McKinley bill promises to be just as Sudden. Wages have been increased from 15 to 20 per ciat in the factories and those now in operation cannot begin to get as many men as they want. One of the pro-prietos of the highle Button Works in l'hliadelphia says:
